Fisher HealthCare becomes exclusive distributor of Flow Cytometry Reagents for Dako Reagent Partnership Division

Dako, Reagent Partnership Division, has entered into a five-year agreement with Fisher HealthCare, a division of Thermo Fisher Scientific. Under this agreement, Fisher HealthCare has been granted the exclusive right to distribute flow cytometry reagents in the U.S. acute care market, including hospitals and reference labs.

Dako, Reagent Partnership Division globally supplies flow cytometry reagents used for cancer diagnostics in clinical and research laboratories. Dako, Reagent Partnership Division holds a portfolio of over 240 reagents which can be used on all conventional flow cytometers.

Fisher HealthCare is a leading distribution channel in the U.S. with a long history of success in the clinical diagnostic market. The partnership between Fisher HealthCare and Dako allows customers to consolidate orders for their central laboratory to include flow cytometry reagents and other ancillary supplies.

Christian Kjaer, Vice President, Reagent Partnership Division of Dako said:

“We are delighted to be partnering with Fisher HealthCare to bring outstanding customer service to our customers along with a broad portfolio of world-class product solutions. The agreement furthers Dako’s commitment to the growing cancer diagnostics market by strengthening and enlarging the Dako sales channel.”

Mark Smits, Vice President, Marketing of Fisher HealthCare said:

“This partnership broadens our cancer-based diagnostic portfolio and allows us to provide a more comprehensive product offering to our customers. We will be better positioned to meet the needs of this market by capitalizing on Dako’s long history of quality flow cytometry reagents and commitment to the diagnostic market.”
