

Your University faces a wide range of threats, both common and extraordinary. Prevention of and immediate responses to campus emergencies are a top priority for parents, students, educators, and administrators.

Fisher Safety recognizes the responsibilities associated with providing top-notch physical security measures and is working with leading suppliers to assemble a product and service offering to support your needs.

## Safety Counts:

*Partners in Campus Safety and Security*

## Safety Counts: Partners in Campus Safety and Security

Your University faces a wide range of threats, both common and extraordinary.

Prevention of and immediate responses to campus emergencies are a top priority for parents, students, educators, and administrators.

Fisher Safety recognizes the responsibilities associated with providing top-notch physical security measures and is working with leading suppliers to assemble a product and service offering to support your needs in:

### Protecting life

- Controlling access to your buildings and grounds
- Detecting potential risks and threats
- Identifying and monitoring employees, visitors, and packages
- Safeguarding merchandise and equipment

This brochure has been designed to provide a sampling of products to assist you in creating a safer campus.

Working together, we can secure our campuses and provide a safe learning environment.

## WEAPONS DETECTION SYSTEM

VIEW SYSTEMS SECURESCAN

Scans/archives a snapshot of each individual with date and time, threshold settings, sensor readings, and graphical display. Advanced magnetic sensors spatially locate threat objects, even those masked with foil, lead, or plastic. Discriminates between suspicious and harmless objects, reducing false alarms from coins, keys, and belt buckles.

View Systems SecureScan 19-130-3644

## INSPECTION MANAGEMENT

BRADY\* TISCOR\* INSPECTION MANAGER\* FLX

System quickly and easily documents all building inspection activities, eliminating the need for transcription. Maximizes productivity without sacrificing accuracy. Allows user to access a detailed history of all inspections and previous violations during follow-ups.

Brady\* TISCOR\* Inspection Manager\* FLX Software 19-130-0071  
SPT1800 Palm\* Handheld Device 19-130-0067

## CBRNE/IED THREAT IDENTIFICATION SYSTEM

ALLUVIAM HAZMASTER G3

Identifies a broad range of unknown chemical agents, radiological isotopes, complex improvised explosive devices (IED) threats, detonators, intermodal containers, and road and rail hazards. Accesses 2,000,000+ materials and trade names in MSDS repository. Integrates more than 32 data sources.

HazMasterG3 Software Package on PocketPC with Mil-Spec Case 19-130-6001

## CHEMICAL AGENT DETECTION

AGENTASE CAD KIT

Highly effective measurement system detects chemical warfare agents. Provides first responders with the ability to conduct surface, solid, and liquid interrogation of Nerve (G and V series), Blood (AC and CK), and Blister (HD and HN) agents. Provides accurate results in field environments. Includes six sensing pens and a sample collector.

Chemical Agent Detection Kit 19-150-0440

## RADIATION DETECTION

THERMO SCIENTIFIC RADEYE G PERSONAL DOSE RATE METER

Wide-range gamma survey meter for personal radiation protection features detection, level indication, and dose rate modes. Menu-driven with an intuitive, easy-to-use format. Intelligent rate meter algorithm guarantees that even the smallest changes of dose rate are detected and random fluctuations suppressed. Equipped with large clear graphic display and audible/visible/vibrating alarms; earphone-output for silent alarming.

RadEye G Dose Rate Meter 19-165-965

## MASS COMMUNICATION SYSTEMS

Dialogic Communications Corporation (DCC) offers complete notification solution for public safety, including:

- Group notification
- Assembling first responders
- Evacuating residents
- Missing persons
- Mass casualty incidents
- Terrorist threats
- Hostage situations and more...

a PLANT+CML company

For more information on how Fisher Safety can work with you to implement a DCC notification program at your campus, contact your Fisher Safety Representative or our Customer Service at (800) 722-6733.

## COMPUTER-BASED CRISIS SIMULATIONS TRAINING

Crisis Simulations offers unique computer-based training simulations that do not follow rigid scripts, but allow first responders to experience a "real-life" crisis; participants receive information (and even misinformation) through multiple media simulating real life communication situations. Demonstrates consequences of complex decisions; allows users to test different decisions for alternate outcomes. Customized training available for private sector companies.

For more information on how Fisher Safety can work with you to implement a Crisis Simulations computer-based program at your campus, contact your Fisher Safety Representative or our Customer Service at (800) 722-6733.

## EMERGENCY RESPONSE DECISION SUPPORT SOFTWARE

Defense Group Inc. offers a decision support software for large-scale and all hazard incidents that provides first responders with critical resources and capabilities needed during any emergency response.

Includes tools, databases, checklists, and incident reporting capabilities that are embedded in the CoBRA® system to facilitate the coordination of response to weapons of mass destruction or other large-scale incidents by any responder.

CoBRA 4.1 Software, Commercial 19-130-0651

## Onsite and Web-Based Training System— FisherTrainer PPV

You can browse FisherTrainer's library of over 100 available interactive Web lessons and select the training topic(s) your personnel need to ensure they are prepared to keep your campus safe and secure. Some of the available courses include:

First Responder

First Receiver and Hospital

General and Industrial

Training Aids and Resources

To take a guided tour, log on to [www.fishertrainerppv.com](http://www.fishertrainerppv.com), or for more information call Customer Service at (800) 772-6733.

# EQUIPMENT AND SUPPLIES FOR YOUR CAMPUS SECURITY TEAM

## Personal Protective Equipment

### Ballistic Protection

#### MSA FORCEFIELD ACH ADVANCED COMBAT HELMET (COMMERCIAL)

Ballistic resistant Kevlar® shell allows maximum sensory and situational awareness with an unobstructed field of view. Four-point adjustable retention system with seven-pad adjustable suspension system. Comfortable for long-term use.

19-1500-341

#### MSA® FORCEFIELD® ALPHA CONCEALABLE VEST

Vest can be worn alone or over T-shirt. Armor-Latch® closure secures a front-to-back panel overlap. Panels automatically align for proper coverage with one-handed "forward pull" adjustment. Increased side coverage and limited slip of ballistic panels offer better protection.

19-150-0366

### APRs, PAPRs, SCBAs, Supplied Air

#### MSA® MILLENNIUM® CBRN GAS MASK

CBRN-approved, Hycar® rubber mask based on the design of the MCU-2/P mask used by the U.S. Air Force in Operation Desert Storm; ideal for law enforcement or emergency response personnel.

19-130-0459

### Glasses, Goggles, Faceshields

### Gloves

### Boots

### Traffic Safety Vests

## Equipment

### Communications Systems

#### CON-SPACE® SR65M RADIO ACCESSORY WITH SIDEWINDER HEADSET

Can be configured to attach to virtually any portable two-way radio. Military-grade headset.

19-171-177

### Headlights, Flashlights, Scene Lighting

#### TELE-LITE® GENERATOR LIGHT UNITS

Inverter-equipped generators powered by rugged Honda® engines serve as reliable, portable power and light sources with simultaneous AC/DC. Exceptionally quiet operation at only 59dB (normal speech is 60dB).

19-130-0951

#### PELICAN® MITYLITE® MAGNUM FLASHLIGHT

Focused Xenon Laser Spot® beam is 600% brighter than ordinary flashlights. Made of unbreakable, chemical-resistant Xenoy® resin.

190-34-486

#### THERMALTRAC THERMAL IMAGING CAMERA

A 37° field of view, 2X digital zoom, and a large 3.5" display allow for officer situational awareness, combined with Heat Seeker and Quick-Temp options, provide a comprehensive display of information.

19-167-212

### Generators

## Traffic Safety

### Cones, Rags, Triangles

### Barricades & Channelizers

#### ALLSAFE-SMC® PACK AND POP® TRAFFIC CONES

Waterproof nylon cone on polypropylene base collapses flat for easy storage. Internal light lasts 100,000 flashes or 36 hours of steady burn.

19-150-0416

### Signs & Tape

### Traffic Wands

#### ALLSAFE-SMC® PLASTIC SAFETY FENCE

Ideal barrier for crowd control and temporary or permanent enclosures. Highly visible orange polyethylene with diamond mesh for safety and stability. UV stabilized. Rugged yet flexible and reusable.

18-999-1133

## Medical and Mass Casualty Support

### First Aid Kits

### Bloodborne Pathogens

### Disinfectants

### Immobilization

### Ventilation/Airway Management

### Burn Care

### Skin Care

### AEDs & Accessories

### Heat Stress Relief

### Stretchers/Backboards

### Decontamination Showers/Shelters

### Isolation Shelters & Equipment

### Support Trailers
