Spectroscopy

Delivering Application Solutions

Spectroscopy

Fisher Scientific offers you one source for all of your Spectroscopy instruments, accessories and consumables – simple and practical to high technology. We bring you a complete product portfolio for teaching or routine laboratory to food and beverage environments, materials research, biotech or pharmaceutical facilities.

For those seeking to understand the composition of materials, we do more to simplify spectroscopy by offering a full range of innovative, high-performance products combining reliability with sourcing simplicity for any application. We move users from samples to answers in the shortest amount of time and with the utmost confidence. From NIR, FT-IR and Fluorescence, to Raman and UV-Visible, we deliver a full spectrum of answers. Our wide array of products makes this science more accessible and valuable than ever before.

Safety and Sanitation

- Bench Liners
- Wipes
- Gloves
- Mats
- Coats/Aprons
- Storage Cabinets
- Storage Carriers
- Waste Storage

Sample Collection

- Purification Kits
- Water Filtration
- Bottles
- Bottle Top Dispensers
- General Purpose Syringes
- Syringe Filters
- Chemicals/Reagents
- Serological Pipets
- Tubes
- Vials
- Racks
- Fume Hoods
- Storage
 - Freezers
 - Refrigerators
 - Shelves
 - Cabinets
- Shippers/Loaders

Chemicals

- Buffers
- Solvents
- Dyes
- Purified Water
- Reagents
- NIST* Traceable Standards

Sample Preparation

- Cells
- Cuvets
- Well Plates
- Temperature Control Devices
 - Circulators
 - Incubators
 - Shakers
 - Hotplates
- Centrifuges
- pH Meters
- Balances/Weigh Boats
- Pipettors/Pipet Tips
- Wash Bottles
- Glassware
- Digital Printing Systems

Spectroscopy Accessories

- Computer/Software
- Installation/Service
- Spare Lamps
- Cell Changers
- Cell Holders
- Film Holders
- Sipper Systems
- Autosamplers
- Mixing Accessories
- Reflectance Accessories
- Peltier System

Sample Analysis Spectroscopy

- UV-Visible
- Fluorescence
- Infrared (FTIR)
- Near Infrared (NIR)
- Atomic Absorption
- Microplate Readers
- Colorimeters
- Software

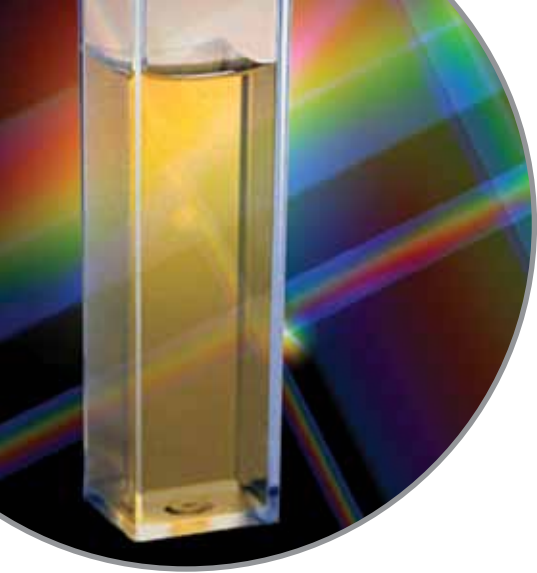

Long-Term Storage

- Refrigerators/Freezers
- Ultra-Low Temperature Freezers
- Storage Boxes/Racks

Review additional applications, promotions, technical notes and more online at www.fishersci.com/results.

Results count in Spectroscopy. Count on Fisher Scientific for everything you need to generate reproducible, reliable results every time.

- Choice of brands from trusted manufacturers...ensuring your work is always of the highest quality
- Convenient, one-source access...letting you focus on your work, not paperwork
- Easy ordering and expedient delivery...assuring you get what you need when you need it
- Services that streamline your business processes...reducing your operating costs

Delivering Innovation...with new scientific advances in Spectroscopy

Thermo
SCIENTIFIC

Thermo Scientific* Evolution* Array—Rapid, full-spectrum analysis for UV-Visible measurement

Designed for research, routine and high-throughput applications, the Evolution Array UV-Visible spectrophotometer provides reliable, full-spectrum data quickly. Straightforward, comprehensive software and accessories combine to deliver a complete analytical environment that amplifies the throughput of your laboratory.

- Photodiode Array Detection
- Open Sample Compartment
- Robust Configuration
- Superb Connectivity

Thermo Scientific* Lumina Fluorescence Spectrometer

Leading in resolution and sensitivity

The Lumina fluorescence spectrometer delivers exceptional sensitivity for the most accurate measurements. Take your analysis to the next level of clarity with an industry-leading 0.5nm spectral bandwidth for both emission and excitation measurements.

Accessories for temperature control, solid samples and polarization give you sampling flexibility.

- High-resolution monochromators
- Variable spectral bandwidth
- 150w xenon lamp
- Customizable filter
